Coordination and Collaboration
TKN (Total Kjeldahl Nitrogen) is the total concentration of organic nitrogen and ammonia. The original TKN method was developed by the Danish chemist Johan Kjeldahl in 1883.
TKN Accomplishments

- TKN Task Force Reformed as a Working Group under CCTF
  - Led by Jen Harper and Renee McHenry from Missouri DOT
  - July 2017

- Held First Meeting at RAC/TRB Summer Meeting
  - Yesterday!
TKN Goals & Activities

- Hold Conference Call to Discuss e-Publications
  - Open to all interested parties, not just TKN working group
  - August 2017

- Begin Bi-Monthly Meetings in September
  - 1st Thursday of the Month 11:30-1 ET

- Get Technical Report Documentation Page DOT F 1700.7 (8-72) Updated
  - Hopefully modified form will be approved this year
Other CCTF Accomplishments

- RPPM Website and Functionality
- Unfunded/Partially Funded Research Needs
Other CCTF Goals & Activities

- Funding Guidebook
- Working With / Supporting Other Committees

Funding Sources for Transportation Research: Competitive Programs

Transportation research needs are broad, cutting across modes, geographic levels, and types of research. The organizations themselves are diverse. While there is considerable strength in this diversity, it can be difficult to navigate through these programs my area of interest? Where do I find the cutting-edge research products?

To help the transportation community access research programs more efficiently, the TRB Conduct of Research Committee, the transportation professionals from across the country worked together to produce Funding Sources for Transportation Research: was posted in December 2008. It will be updated regularly with:

- Additional research programs,
- Information and updates for the existing programs, and
- Tips and advice.

This document provides information on research programs to help you find the resources you need. For each program you will f

- A general description,
- The type of research funded,
- Project funding levels,
- Typical project duration,
- Program schedule,
- Project solicitation and submission process,
- Selection process and criteria,
- Tips for writing winning research statements, and
- Web address and contact information.

The document contains several other chapters to help you navigate transportation resources and programs.
